

I am very much concerned about the expansion of LPFM stations. Currently K-LOVE is what I listen to most often, whether I am in Lincoln or Omaha. There are a couple of other stations that have clean, in-offensive programming that I also listen to, but K-LOVE has a niche that can't be compared to any other radio station.

When in a vehicle with others, K-LOVE is the only choice that seems to cross generations, both young and old and everyone in-between enjoy it. The younger generations want music and not words, the older generations especially don't want offensive words in their music, and while I enjoy both music and speaking programming, K-LOVE is unique.

People often search for something to listen to when they are tired or depressed, and K-LOVE offers programming that is beneficial and up-lifting. From what I have heard about the number of phone calls received by K-LOVE, there are a lot of people out in my community and across the nation that have found K-LOVE an important resource. I would hate to have that resource no longer available.

We need to continue to have clean, positive, and valuable options available on our airwaves, and as K-LOVE is financed by people who want to listen to it, it needs to be protected. Making it even more difficult, or very likely impossible for stations such as K-LOVE that utilize translator stations to continue is not a good thing. It would be bad for me, bad for my community, and would have a negative impact across this nation.

Please do not expand the LPFM stations! It is not the right choice and would be to the detriment of our society

Thank you.
